I want to share my story of how my business came into being. I built this company from scratch; with no business model, no networks, no funds but with ardent passion and aspirations to compensate for it. Having being brought up in a sub urban town, I was not exposed to the astonishing world of computers early on. My first encounter with a computer was at my uncle's home and it marked a turning point in my life. I couldn't wait to get my hands on one. I first used a computer at the age of 17, in a cyber café with money I took from my father unbeknownst to him.

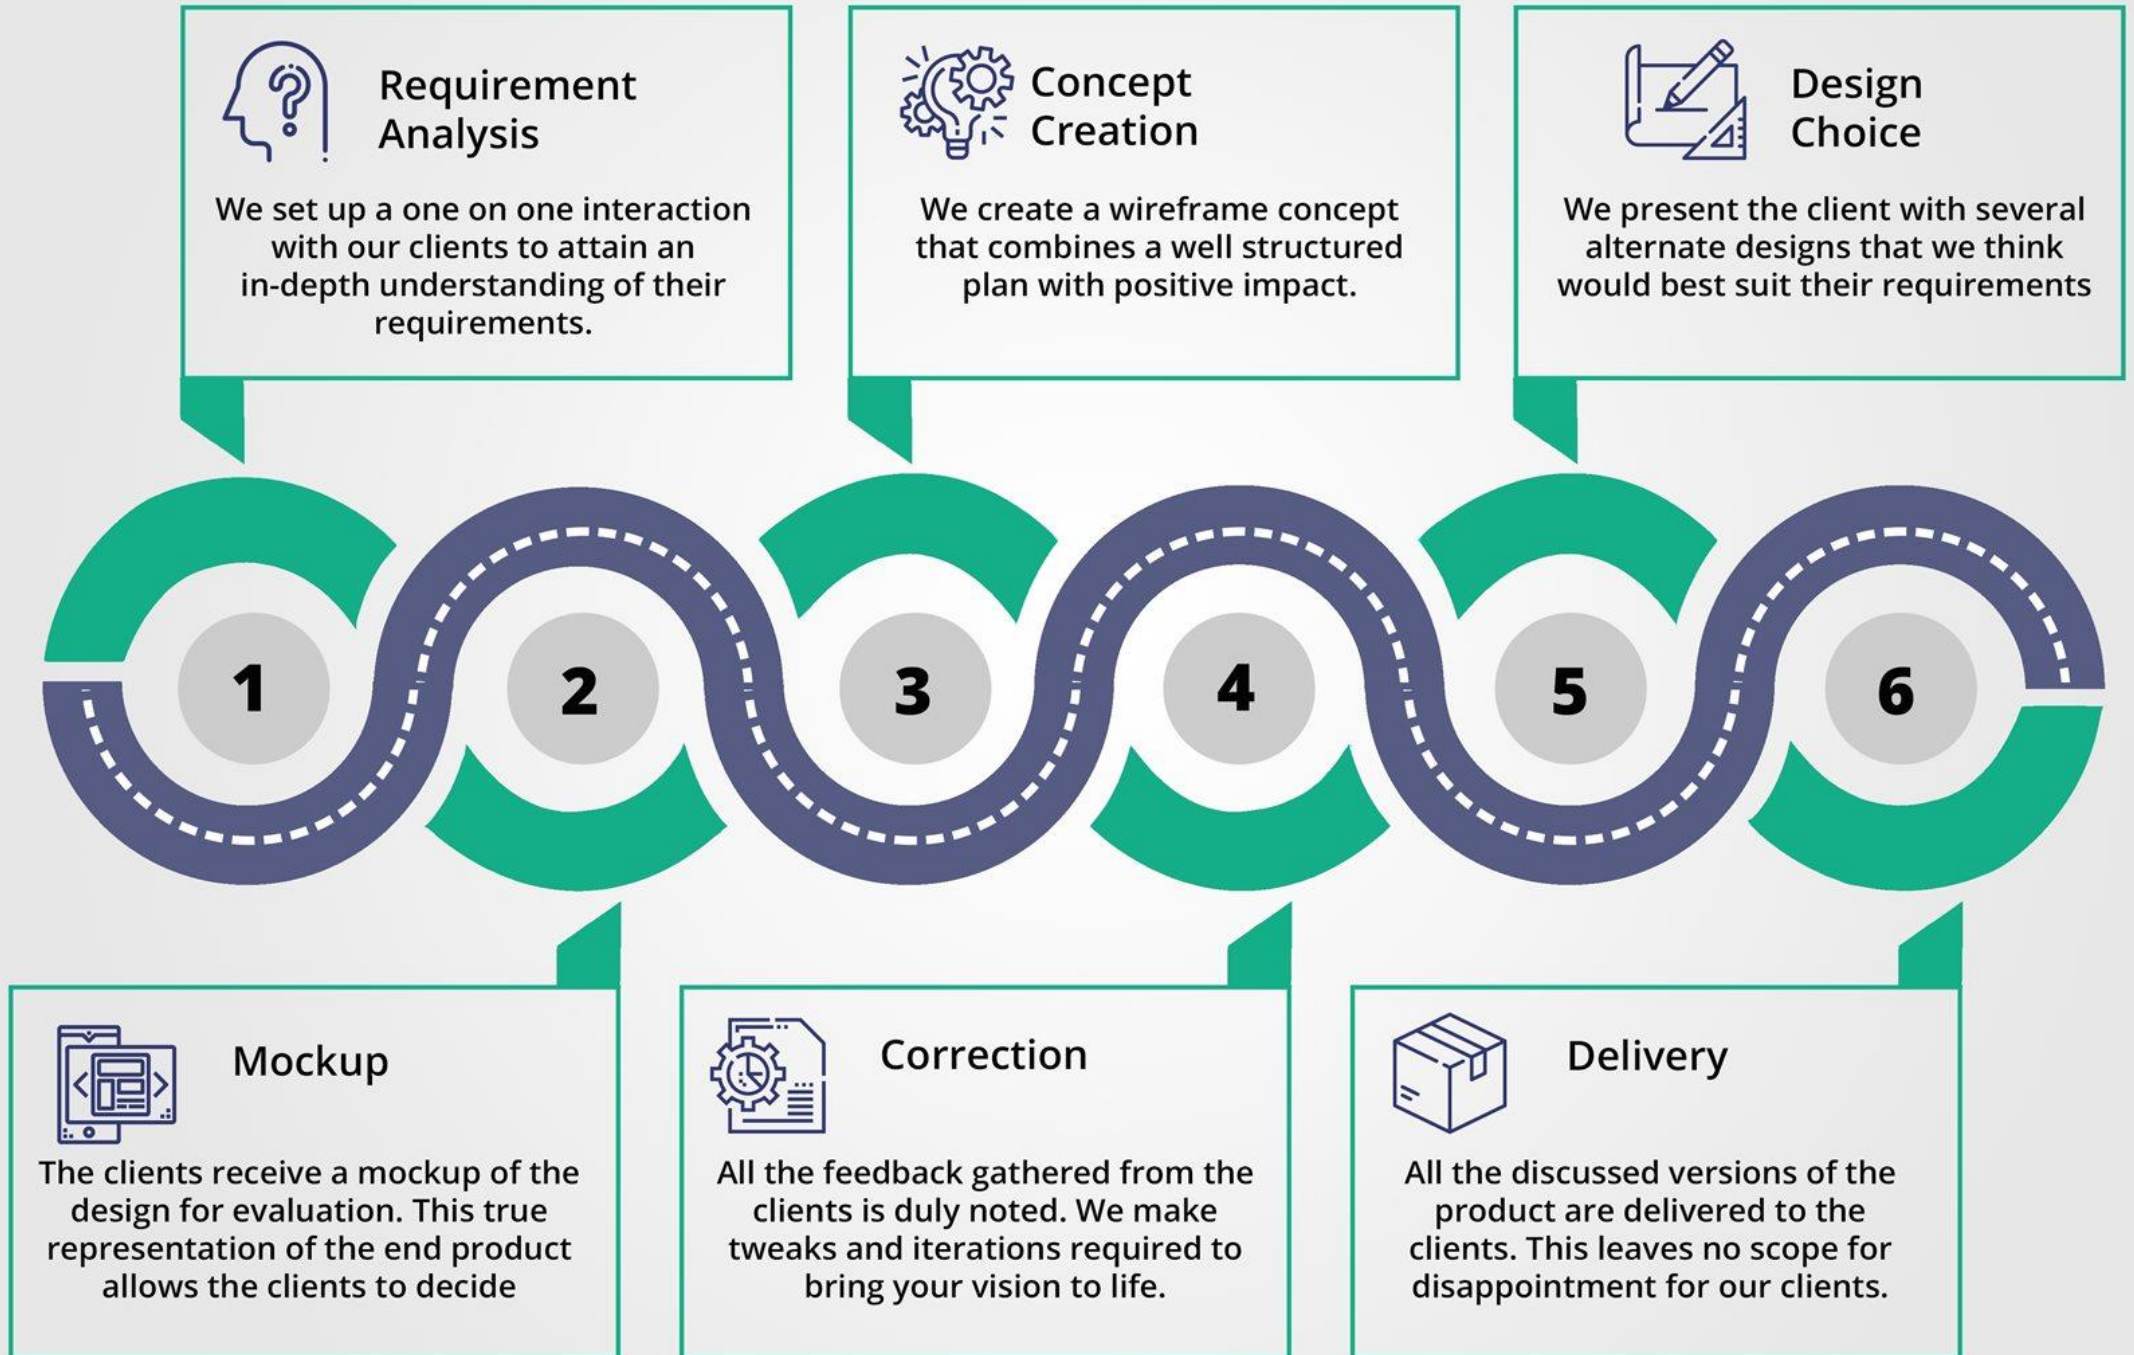

With no tutor guiding me, I didn't initially grasp the unthinkable wonders this device could create. My joy knew no bounds when I first created a Google homepage with my own name instead of 'Google'. I bought my first laptop in 2010 and since then, we have been inseparable. I conditioned myself to keep up with the ever growing industry, built a strong network and worked with unwavering determination to forge a strong bond with my clients, one that I wouldn't trade for all the money in the world.

I started this company 6 years ago with a vision to help clients express themselves in an effective and creative manner. I live by the ideology that design is 10% work and 90% brainstorming. The finished product we offer aims to help your company reach its ultimate goals.

While there are several alternate companies that you can choose from, we have traits that helps set us apart. Often, the clients don't know what they are paying for and what features best suit their needs. We walk them step by step through our transparent process and work closely with them towards building a flawless product. As a result, our clientele comprises of large companies, start-ups, national and international companies, government and joint firms.

The follow pages exhibit the work we have delivered to our clients. To see more of our work, feel free to get in touch with our team. Thank you for taking the time out to browse through our portfolio and we look forward to collaborating with you.

Sri Vasavi Kanika Parameshwari Temple

Five decades back i.e. in the year 1968 two philanthropic sriya families became instrumental for the construction of Vasavi temple. Sri. Jha Govindaram and Sri. Jha Prakash Sarwan laid the base for the temple and Sri. Jha Lakshminarasimha and Sri. Jha Vishwanath Sany and other Sriyasa Ayya community rendered financial assistance for construction of the temple.

SRI VASAVI SANGHAM K. SIVARAM

Sri Vasavi Sangham was formed by Ayya sriya youth who originally hail from K. Sivaram village but now settled in various professions and business in Bangalore and other nearby cities and towns. The Sangham is a group of like-minded individuals who are working with unswerving determination to give the rural community of the social and economic opportunities available to their fellow countrymen. Members of the Sangham visit the village on every third Sunday of the month and organize implementation of various activities.

K. SIVARAM

Village Sivaram derives its name from Village word Shivaram which means resting place of Shiva. Nearby base Sivaram was the capital of Sivarama dynasty in 13th BC. Pallava had moved their capital from Chitradurga to Hampi which was earlier known as Sivaram. King had built magnificent temple for their god Sivaram vi. Sivarama town. The temple is now preserved and maintained as an important monument by archaeological department of central Government. Hampi is also known as Sivarama Kuth. Sivaram is tiny and serene village with scenic beauty. At present the village is part of Hampi museum under of Karnataka district. Hampi is in the state of Andhra Pradesh. Hampi is a world heritage site border 110 kilometers from District headquarters and 100 km from Bangalore and 100 kilometers from state capital Anurampalli from Sri, Karnataka.

GREEN AURA

GREEN AURA Around half of all non-renewable resource mankind consumes are used in construction, making it one of the least sustainable industries in the world. However, mankind has spent the majority of its existence trying to manipulate the natural environment.

INTRODUCTION

The dream of greener world

Around half of all non-renewable resource mankind consumes are used in construction, making it one of the least sustainable industries in the world. However, mankind has spent the majority of its existence trying to manipulate the natural environment. Recently we held COP12, which extensively speaks about the need of sustainable development in all the sectors. Which in long run can save humankind and the environment in a better way. Paris Convention is not our 1st attempt to unite the world towards sustainability. It goes back to 1972 when UN conference on the human environment was held in Stockholm, several declarations were made regarding to resource management, Pollution control, Environmental policy etc.

Now the question is in spite of all these declarations and environmental pacts still our pollution level are rising and we continue to form more rules, regulation, and international pacts, again and again. We struggle to achieve the goals that has been set at the beginning. So which is that important thread in the plans we are missing out its time. In my sense when "Action Plan" become may just an "action" that has to be adopted and followed in the minds of people. It become since it is significant until it becomes an "emotion". We started our company with emotion towards nature in mind be introduced to you green aura - a Consulting firm that provides a unique perspective on performance during building design, construction and operation that is unparalleled in the industry where highly skilled team works with the latest technologies in the building industry and harness the force of nature.

SUSTAINABLE SERVICES

Sustainable energy is energy that is consumed at insignificant rates compared to its supply and with manageable collateral effects, especially environmental effects.

Energy Audit

An energy audit is an inspection, survey and analysis of energy flows, for energy conservation in a building, process or system to reduce the amount of energy input into the system without negatively affecting the outputs. In commercial and industrial real estate, an energy audit is the first step in identifying opportunities to reduce energy expense and carbon footprints.

Why Energy Audit?
By understanding the specific conditions that affect your home's energy usage, Green Aura will make the necessary adjustments so that you can enjoy the benefits of Lower Energy Bills, Improved Comfort, Better Health and Safety, Environmental Impact.

VISHISHT INTERIORS

Vishisht Interiors is extremely honored to be entrusted with this responsibility. We as a team believe in creating personalized space which is warm and inviting. VIS is a team of enthusiastic people striving to achieve quality through ideal costing. In our designs, the interaction with the environment with the sun, wind, rain and sounds is as much important as every square inch matters. We try to create your home with unique, individual and quirky personality.

CADDESOLUTIONS

CADDESOLUTIONS have range of CADD courses designed to match your needs and aspirations. To ensure you receive the very best in our Training Centers, our programs are having been specifically designed to meet the needs of individuals, educational institutions, local communities, employers and business organisations.

OUR FACILITIES

STATE-OF-THE-ART

We have a team of highly qualified, experienced and dedicated staff committed to excellence in training the students to achieve their goals. We have an exceptional record of student and business success.
CADD E Solutions has trained about 25,000

Professionals from Diverse Engineering, Graphic and Management backgrounds in our Institute. We believe that learning environment is an important factor that helps students to reach up to their full potential and we completely appreciate our role in that objective.

WORLD CLASS QUALITY

Emerging Franchiser with a mission to grow as India's biggest network on franchise based training, CADDESOLUTIONS training services Head Quartered at Bengaluru.

CADD SOLUTIONS has trained about 25,000 professionals from diverse Engineering, graphics and Management backgrounds in our institutions covering in and around Bengaluru. We have emerged into franchise business from 2013 to till date and going strong.

TURKEY SYSTEM

Our franchise system is a proven system for operating the business and generating profits. If franchisees skills are weak in sales & marketing or operations then a turnkey franchise may be best.

FRANCHISE SUPPORT

In general, small business owners often have very little support or lack a support team with business acumen. Having a franchise offers the opportunity to share your challenges with other like-minded entrepreneurs. "As franchise companies state, you're in business for yourself, but not by yourself!"

BRAND NAME

The more established franchises provide a market awareness & brand name to franchisees. This can amount to great savings in customer acquisition costs and allow for more time in the operation of the business.

LOWER INVENTORY PRICES

The collective buying power of a franchise group allows for lower costs in purchasing inventory and equipment. Independent businesses usually have less bargaining power with suppliers.

EASIER STAFF RECRUITING

Finding good employees is a critical success factor for many independent small business owners. A franchise business with a recognized name will have greater recruiting pull than an unknown business entity.

LOGO DESIGN

May 2012 - Dec 2018

Description

From sketch to product that would be used to recognize a brand that would like to be seriously spotted on the market. The logo is the most important part of every brand and must be made as eye-catching at the same time has to be done to last for centuries.

LOGOS

Design is an opportunity to continue telling the story, not just to sum everything up

LOGOS

A designer is an emerging synthesis of artist, inventor, mechanic, objective economist, and evolutionary strategist

LOGOS

Design creates culture. Culture shapes values. Values determine the future

LOGOS

A man who stops advertising to save money is like a man who stops a clock to save time

LOGOS

Design is so simple. That's why it's so complicated

LOGOS

Graphic design will save the world right after rock and roll does

LOGOS

Fashion is a language that creates itself in clothes to interpret reality

LOGOS

When the image is new, the world is new

LOGOS

Thinking about design is hard, but not thinking about it can be disastrous

LOGOS

Styles come and go. Good design is a language, not a style

Appudeh Technologies Pvt. Ltd. is a reputed organization based in "3rd Nagar" aiming towards manufacturing and servicing of the Modern technological needs required in field of waste water treatment and air pollution control. Thus promising a healthier and sustainable world.

CLEANING WORLD WITH TECHNOLOGY

THE WATER CHRONICLE

Water, water everywhere and all the boards did think. Water-water Everywhere not a drop to drink. It's a fact that 11 billion people lack the access to safe drinking water, so where is this fresh water that we are looking for? The percentage of drinking water is in fact, most of it being converted to sewage or lost in the transaction by us "the individuals". Why has the beautiful human value loom for life consideration for the environment has faded away? The water and water issue will only be solved by individual actions. We do not have to wait for government or corporate action, it's us "individuals" who have the means to make the global impact. In this motion we at Appudeh Technologies Pvt. Ltd. have developed the state of the art crude tools to fit both personal and corporate needs in treating the wastewater.

THE AIR CHRONICLE

How would it be, if U were to wake up every morning and wear a mask to go out and just breathe? It's pathetic. But that's how it is in China every day. The world is no longer the place it's once used to be. The rate at which technology and industrialization have progressed is in direct proportion to increase in an evil we known as pollution. Environmental degradation has never been worse. Global warming is evident and pollution is outrageous. Its time for you to take action and do not wait for the credit. The beautiful feeling of being involved is worth it. In order to address the variegated demands of our environment, we at Appudeh Technologies Pvt. Ltd. have hand-crafted solutions to make the world, better place.

PEARL VALLEY STAR RESORT

Serenade your loved one - stroll hand in hand. Sense the cool breeze that skims off the lake and the crush of soft lawn beneath your feet. Take a dip in our massive pool, or go cycling. Blast a game of billiards with your friends. Immerse yourself in the aroma of steaming coffee or variations of it, at our bistro on the deck. Pamper yourself at our spa or salon - choose from our various specialties that will leave you glowing. Tickle your taste buds, or make it exotic with our cuisine range. Cuddle in the cozy and luxurious cocoon of your choice. Wake up to another beautiful day. We heartily Welcome you to Pearl valley Star Resort.

Located outside of a bustling city like Bangalore with its chaotic traffic lies 150 acres of carefully carved resort and villas in rural place like Sira just for children and the child in you. Its a pleasurable experience from the word go! Our experience is all about rest and tranquility.

India is a tapestry of mountains, sprawling plateaus and flowing rivers stretched across lush grassy plains. Its winding country roads and humid conditions exemplify the rugged terrain and adventurous spirit that has inspired adrenaline junkies for generations, all around the globe. Thanks to the efforts of a few local thrill seekers, one can now experience heart pounding adventure sports like river rafting, kayaking, paragliding and more, while driving throughout the beautiful landscape of India. These events are designed to bring out the best in everyone, and get their blood pumping. Being on the rugged roads in the humid conditions of India is not something that is appealing to anyone. However the promise of adventure after every kilometre, one breath-taking sight after another and of course the company of friends and family can make any trip worth it.

We have all looked at the stunning houses in architectural posts and wished we had a house like that. What if we told you that you can design every nook and corner of your house in a manner that reflects your inner self? A wide palette of colors will capture your personal style. We have just what you need for your home in this metropolitan a contemporary collection that exudes elegance and simplicity and provides you a sense of comfort and well being. Our pieces act as with bold elements in any setting, creating a significant presence without overshadowing the holistic theme. Everything about us screams class. Our on-trend designs rival even the most famous design companies in the world.

Griffin Furniture and Interiors is a company based in Bangalore, India. We have provided world-class service to our ever-growing customer base for the last fifteen years.

It is common knowledge that the benefits of playing sports are numerous. Aside from taking you closer to your fitness goals, it also helps build character. You will notice your self-esteem soar as your body starts transforming. Reduce hypertension, increase your immunity and improve blood circulation by indulging in sports. Along with attaining a toned body, you will also be a lot more focused and relaxed. A new found attitude of sportsmanship will allow you to respect the people around you and improve your social skills. Allow us to help you discover a whole different version of yourself

Has leading a healthy life become an arduous task for you? Kempegowda Sports Club maintains the perfect balance between exercise, leisure, and entertainment. Located on the outskirts of a city bustling with life,
